Flexible Rods

Designed for sweeping insulated metal chimneys and flexible flue liners

Key features

Affordable flexible rods made by us in Britain using flexible 12mm diameter rod for added strength and durability. Our superflexy 8mm nylon rods are ideal for sweeping tight 90° bends, and can also be used as a 'lead' rod with flexible 12mm rods.

High quality solid brass screw ends with ½" Whitworth screw fitting featuring chamfered edges to minimise risk of damaging flexible liners.

Flexible Liner Rod

Superflexy Liner Rod

Description	Product Code
1m Flexible Liner Rod	FR01
1.5m Flexible Liner Rod	FR015

Each pack includes a Heavy Duty rod bag.

Traditional Sweeping Kits

Flexible chimney liner sweeping kit with assortment of Soft Bristle Brushes

Kit Contents

- 1 x Heavy Duty Rod Bag
- 12 x 1 metre flexible liner rods (1/2" Whitworth)
- 1 x 5" Soft bristle brush
- 1 x 6" Soft bristle brush
- 1 x 7" Soft bristle brush
- 1 x 8" Soft bristle brush

Description	Product Code
12m Rod Kit with 5,6,7,8" brushes and heavy duty NACS Rod Bag	KNACSF01
12m Rod Kit with 5,6,7,8" brushes and heavy duty Guild Rod Bag	KGUILDF01
12m Rod Kit with 5,6,7,8" brushes and heavy duty Rod Bag with Rodstation logo only	KRODF01

Masonry chimney sweeping kit with assortment of Medium Bristle brushes

Kit Contents

- 1 x Heavy Duty Rod Bag
- 2 x 90cm (3ft) rigid liner rods (3/4" Universal)
- 15 x 90cm (3ft) rigid liner rods (7/8" Universal)
- 3 x 90cm (3ft) rigid liner rods (1" Universal)
- 1 x 5" Medium bristle brush
- 1 x 6" Medium bristle brush
- 1 x 7" Medium bristle brush
- 1 x 8" Medium bristle brush
- 1 x 14" Medium bristle brush

Description	Product Code
18m Rod Kit with 5,6,7,8,14" brushes and heavy duty NASC Rod Bag	KNACSR01
18m Rod Kit with 5,6,7,8,14" brushes and heavy duty Guild Rod Bag	KGUILDRO1
18m Rod Kit with 5,6,7,8,14" brushes and heavy duty Rod Bag with Rodstation logo only	KRODR01

Bristle Brushes

Soft bristle brush - White

Soft bristle brush with protective ball end and Whitworth 1/2" male end screw fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBS5U

Brush Diameter inches/mm	Product Code
4"/100mm	FBS4
5"/125mm	FBS5
6"/150mm	FBS6
7"/180mm	FBS7
8"/200mm	FBS8
10"/250mm	FBS10
12"/300mm	FBS12
14"/350mm	FBS14

Medium bristle brush - Orange

Medium bristle brush with protective ball end and Whitworth 1/2" male end fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBM5U

Brush Diameter inches/mm	Product Code
4"/100mm	FBM4
5"/125mm	FBM5
6"/150mm	FBM6
7"/180mm	FBM7
8"/200mm	FBM8
10"/250mm	FBM10
12"/300mm	FBM12
14"/350mm	FBM14

For brushes with a 3/4" universal fitting (to fit drain rods), use 'U' after the code, ie. FBM6U. Universal brushes do not have the ball top fitted as standard. (Price same as FBM6)

FBM6U

RodStation offers a great choice of brushes

For sweeping insulated metal chimneys and flexible liners with 1/2" Whitworth rods.
For masonry chimneys the 3/4" Universal brushes are used with rigid rods.
Ball end brushes fitted to brushes with 1/2" Whitworth fitting only.

Hard bristle brush - Grey

Medium bristle brush with protective ball end and Whitworth 1/2" male end fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBH5U

Brush Diameter inches/mm	Product Code
5"/125mm	FBH5
6"/150mm	FBH6
7"/180mm	FBH7
8"/200mm	FBH8
10"/250mm	FBH10
12"/300mm	FBH12
14"/350mm	FBH14
16"/400mm	FBH16
18"/450mm	FBH18
20"/500mm	FBH20

Extra hard bristle brush - Black

Extra hard bristle brush with protective ball end and Whitworth 1/2" male end fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBXH5U

Brush Diameter inches/mm	Product Code
5"/125mm	FBXH5
6"/150mm	FBXH6
7"/180mm	FBXH7
8"/200mm	FBXH8
10"/250mm	FBXH10
12"/300mm	FBXH12
14"/350mm	FBXH14
16"/400mm	FBXH16
18"/450mm	FBXH18
20"/500mm	FBXH20
22"/560mm	FBXH22
24"/610mm	FBXH24

Wire Brushes

Ideal for use in heavily tarred ceramic flue pipes, pre-cast sectional chimneys and brick chimneys

Fitted with universal 3/4" fittings

Description	Product Code
Wire Brush 100mm (4")	RW04
Wire Brush 150mm (6")	RW06
Wire Brush 200mm (8")	RW08
Wire Brush 230mm (9")	RW09
Wire Brush 300mm (12")	RW12
Wire Brush 400mm (16")	RW16

Coring Balls

Coring balls are ideal for clearing obstructions in the chimney

Constructed in solid steel and zinc plated to prevent rusting. Each ball includes a 14m length of rope. Must be used with care to avoid damaging the flue or chimney.

Description	Product Code
Coring Ball 100mm (4")	CORS01
Coring Ball 125mm (5")	CORS02
Coring Ball 150mm (6")	CORS03
14 metres Heavy Duty Rope	RPE01
Coring Ball Set (4,5,6" & 14m Rope)	CORS123

Flue Brushes

For cleaning flues and airways in hard to reach areas and range cookers

	Description	Product Code
A	Flue Brush 75x 915mm	FLUE01
B	Flue Brush 55 x 915mm	FLUE1/2

22  Nest Buster Ideal for power sweeping and breaking apart birds nests, with a set of 15cm legs and allen key.	23  Rotating Handle For manually rotating powersweeping rods.	24  Breaker Small 100 x 100mm. Not suitable for metal chimneys or liners.	25  Breaker Large 100 x 150mm. Not suitable for metal chimneys or liners.
26  Breaker Large Offset 100 x 150mm. Not suitable for metal chimneys or liners.	27/28/29  Pipe Scraper For scraping inside of fluepipes and register plates, available in 3 sizes (125mm, 150mm & 180mm).	30  Single Angled Scraper For scraping deposits off large solid masonry flues. Not suitable for metal chimneys or liners.	31  Twin Angled Scraper For scraping deposits off large solid masonry flues. Not suitable for metal chimneys or liners.
32/33/34  Wheel Pipe Scraper Designed for cleaning horizontal fluepipes. Operated by pushing within pipework (with rigid rods, 18 or 20mm). Fitted with 2 wheels for ease, scraper is then rotated 180 degrees and pulled back, a rubber flange allows for debris collection and protection of joints within flue.	35  Power Hammer Heavy duty power hammer for removal of terracotta/ clay liners. To be used with 20 or 22mm diameter rods.	36  Chimney Clearing Chisel Heavy duty chisel to be used with 20 or 22mm diameter rods.	37  Power Grip Handle Power grip rotating handle with stainless steel male and female ferrule and shaft allowing the handle to stay still while the power rods rotate.

FlueBoss® Colourcoded Powersweeping Rods

Designed for effective sweeping of insulated chimneys, flexible flue liners and masonry chimneys.

Powersweeping Rods (full length 1 metre / 3'3")

Rodstation's range of colourcoded FlueBoss® powersweeping equipment holds several patents and design copyrights. Manufactured in the UK from high grade aluminium which is hard colour anodized to increase strength and durability and to help with rod selection for chimney type. The colourcoded rods have a unique 'push fit' connection which is quick and extremely strong. A slight twist of the rod engages the button into position with a reassuring 'click'. All rods can be inter-changed.

FlueBoss® Colourcoded Rods Features & Specifications

Gold 8mm	
Applications	Biomass/gas/oil
Features	Very high flexibility, restricted access or lead rod and tight bends
Diameter	8mm
Flue Range	3" to 7"
Flexibility	100%
Colour	GOLD
Weight:	120g
Code	PSRM02SB

Gold 10mm	
Applications	Flexible liner/ single/ twinwall/gas/oil
Features	Ideal for 5" to 8" steel flues, lightweight and excellent for restricted access
Diameter	9mm (ferrule diameter 16mm)
Flue Range	2" to 7"
Flexibility	90%
Colour	GOLD
Weight:	120g
Code	PSRM01SB

Green 8mm	
Applications	Biomass/gas/oil
Features	Very high flexibility, restricted access or lead rod and tight bends
Diameter	8mm
Flue Range	3" to 7"
Flexibility	100%
Colour	GREEN
Weight:	140g
Code	PSR01SB

Pink 10mm	
Applications	Flexible liner/ single/ twinwall
Features	High flexibility, lightweight good for bends and flexible liners
Diameter	10mm
Flue Range	3" to 7"
Flexibility	80%
Colour	PINK
Weight:	160g
Code	PSR02SB

Orange 12mm	
Applications	Flexible liner/ single/ twinwall
Features	Ideal for 5" to 8" steel flues, lightweight and great on 6" flues
Diameter	12mm
Flue Range	5" to 8"
Flexibility	70%
Colour	ORANGE
Weight:	205g
Code	PSR03SB

Red 14mm	
Applications	Ceramic Liners
Features	Ideal for ceramic round liners, ducting, drains and unlined flues
Diameter	14mm
Flue Range	8" to 16"
Flexibility	60%
Colour	RED
Weight:	250g
Code	PSR04SB

Grey 16mm	
Applications	Larger masonry flues/ square
Features	Ideal for larger pumice and masonry flues
Diameter	16mm
Flue Range	16" +
Flexibility	40%
Colour	GREY
Weight:	320g
Code	PSR05SB

Black 18mm	
Applications	Larger inglenook flues
Features	Heavy duty rigid ideal for large straight flues, reaming
Diameter	18mm
Flue Range	18" +
Flexibility	30%
Colour	BLACK
Weight:	430g
Code	PSR06SB

Stainless Steel 20mm	
Applications	Large Inglenook/ liner breaking
Features	Heavy duty rigid ideal heavy duty liner breaking and reaming
Diameter	20mm
Flue Range	20" +
Flexibility	15%
Colour	STAINLESS
Weight:	560g
Code	PSRS20SB

Stainless Steel 22mm	
Applications	Large Inglenook/ liner breaking
Features	Heavy duty rigid ideal heavy duty liner breaking and reaming
Diameter	22mm
Flue Range	20" +
Flexibility	10%
Colour	STAINLESS
Weight:	660g
Code	PSRS22SB

Blue 20mm	
Applications	Large Inglenook
Features	Very rigid ideal for tall very wide flues and horizontal ductwork
Diameter	20mm
Flue Range	20" +
Flexibility	5%
Colour	BLUE
Weight:	460g
Code	PSR08SB

FlueBoss Mini Powersweeping Kit

The FlueBoss Mini Powersweeping Kit is designed for cleaning of 2" to 7" pipes such as Biomass flues, air conditioning ducts and dryer vents where extra flexibility is required. The small diameter head (only 3/4" when compressed) makes it ideal for negotiating through awkward spaces and opening up when spinning.

Ultra HD Touchscreen 1080p Chimney Camera Kit

The latest chimney inspection camera to our range our Ultra HD 10.1 inch camera is 1080p resolution with impressive crystal clear images and video displayed on a large 10.1 inch screen. The monitor will run approximately 4 hours when fully charged and is heavy duty with protective edging and sapphire glass, there is an option to use the touch screen to navigate the features and to record or snapshot footage or you can use the buttons to the right of the screen. Whilst recording sound is also recorded which is a real benefit for talking through any observations during an inspection. The monitor comes complete with a formatted micro 32GB SD card and a HDMI cable to connect the monitor directly to a TV screen.

By downloading the road cam app by following the QR code in the user manual the camera can be linked to a smartphone for easy file transfer to customers via WhatsApp.

The Ultra HD chimney camera kit is complete with an 18 metre 5mm cable and the unique copyrighted Rodstation camera ball housing enabling a viewing angle of 45, 90 and 180 degree with the new option of connecting the ball to the side of a 12mm rod (supplied in the kit). The camera has 12 high power LED lights which are dimmable and with the auto focus feature this gives one of the highest quality picture of any camera on the market. All our camera kits include a 12 month warranty as standard.

Kit supplied in Case includes:

- Heavy Duty Rodstation Case
- Camera ball with 4 rigid and 4 flexible adjustable arms and sound rod mounting
- 12 Ultra bright LED Camera
- 10" 4K Touchscreen Monitor
- User Manual
- HDMI Cable
- USB Cable
- 32GB Micro SD Card
- Adaptor to 3/4" Universal
- Adaptor to buttonlock
- 10" rod for side rod camera mounting
- Cable tidy reel
- Allen key to use for side rod mounting
- DC 12V 2A UK Charger (US & EU Charger available)
- Neck camera monitor strap

Camera Head

- Patented Ball housing to protect the camera featuring adjustable arms and 4 rod location angle points
- 90 degree field of view
- 16 metres of cable
- Side mounting rod feature

Monitor

- 10" 4K Touchscreen Monitor
- 4 hours recording time
- Video and photo function to Micro SD Card
- Compatible to smartphone using app
- Heavy duty dust and splash proof monitor
- Headphone connection port
- Talk recording function whilst undertaking survey
- Zoom in/ Zoom out function

Ventilation and Duct Cleaning

The Rodstation range of air duct cleaning equipment is manufactured on our premises and engineered to deliver unmatched cleaning power, ensuring that your air ducts are thoroughly free of dust, debris, and allergens.

FlueBoss® Flexible Vent Shaft

Flueboss Flexible Vent Shaft is designed for precision and efficiency, featuring a rotating shaft encased in a heavy-duty nylon sheath. Its lightweight and highly flexible build allows for effortless manoeuvring through 90-degree bends, making it perfect for accessing hard-to-reach areas. Each end is equipped with our convenient single-button female and male connections, ensuring a quick and secure attachment to your chosen power brush or Flueboss head.

Available in 2, 3, or 5-meter lengths, kit includes drill adaptor and Flueboss Nylon head.

Meeco's Red Devil

Fire Safety and Maintenance Products

MEECO have appointed Rodstation as the exclusive distributors for the UK and Europe for their range of proven products aimed at reducing and stopping chimney fires.

Founded in 1937, MEECO are well known in the USA for manufacturing a wide range of safety and maintenance products for wood and solid fuel burning. They have built a reputation for high quality and service. Originally the United States Department of Natural Resources contracted them to develop a product for the removal of soot from wood-burning generators and power plants, which they then launched under the MEECO's Red Devil trademark.

FireEx

The MEECO FireEx is quick and easy to use. At the first sign of a chimney fire simply toss into the firebox and the chimney fire stops within minutes. The FireEX is not a flare and works without any pre ignition. The FireEx has been performance tested using creosote-fuelled chimney fires and will not cause any water damage. Suitable for use on Stoves, Fireplace Inserts and Fireplaces.

Watch a video demonstration of the FireEx in action on Rodstation's YouTube Channel.

Description	Product Code
FireEx	MFEX01
FireEx Box Of 6	MFEX06

Powdered Creosote Destroyer

This Powdered Creosote Destroyer is specially formulated to control creosote build-up in wood and coal stoves, when it is put on a fire. It works as a catalyst destroying the binder holding the creosote particles together. Regular removal of creosote build-up can help to prevent chimney fires.

Description	Product Code
Tub Creosote Destroyer 2lb	MCD02
Tub Creosote Destroyer 5lb	MCD05

ColorGlo Flames

MEECO ColorGlo Flames add a rainbow of colours to your fireplace, woodstove or campfire. 2-3 cones will burn for 10-12 minutes. Each box contains at least 30 cones.

Description	Product Code
ColourGlo Fire Cones	MFC01
Black Stove Polish	MCSP01
Conditioning Glass Cleaner	MCGC02
